2.4m HIGH

1. START WITH ONE STANDBUILDER SYSTEM FRAME AND GRAPHIC

2. CLAD A SHELL SCHEME WALL USING SBS SHELL SCHEME FIXINGS

3. HANG ON AN OFFICE WALL WITH SBS HANGING FIXINGS

4. USE AS A SELF STANDING DISPLAY WALL USING SBS STABILISING FEET

5. ATTACH A SECOND FRAME USING SBS JOINERS TO CREATE AN EXHIBITION STAND

StandBuilder System for the ambitious exhibitor

- CLIENT** Cats Protection
 - EVENT** Multiple shows throughout the year
 - STAND** Various formats including shell scheme and free standing
 - USPs** Flexible frame systems that hang on shell scheme walls and/or free stand
- Frames pack into cricket/hockey bag sized canvas cases
- Easy to add width or height to frames retrospectively
- Graphics die-sublimation printed on fabric for super-long durability

CATS PROTECTION

Cats Protection uses the SBS system within 2 x 2, 3 x 2 and 3 x 3 shell scheme displays and as 2m, 3m, 4m and 6m free standing displays

Cats Protection also uses a 1m x 1m tower on open space sites to draw attention to its location

StandBuilder System at glance

- Unlike our Magiclad and Fabriclad systems (which use the shell scheme as its framework), the StandBuilder System (SBS) has its own framework
- SBS can be hung on a shell scheme wall to create a seamless fully-clad stand
- SBS can be used as a free standing displays system in a number of formats including straight — or L shaped, or U shaped or even Y shaped
- The addition of three horizontal bars converts a 3m wide stand to a 4m stand, so you do NOT have to buy a new frame if you want a wider frame
- The addition of three vertical bars converts a 3m high stand to a 4m stand, so you do not have to buy a new frame if you want a taller frame
- SBS can be accessorised with flat screens, spotlights, iPad holders, shelving, literature racks, goodie bag holders and much more
- Just at home in the office as on an exhibition stand - ie hang your superbly striking exhibition graphics in your boardroom, showroom or reception
